Presentation

Non-governmental organisation (NGO) specialising in training, schooling and education and development.

The aim is to ensure the ongoing training of educators in order to promote the well-being of children, women, adolescents and adults. This implies partnership actions which create and build a network of educational and social spaces for education and training.

Structuring: a national bureau and six sub-prefectoral departmental and sub-prefectoral delegation satellites.

- Approach Ministers responsible for education and suggest that the association participates in determining educational policies and improvements to education quality.
- Develop leisure, social action and cultural programmes;

- Fight to promote human rights and children's rights.
- Strive to ensure basic schooling for children, adolescents, young people, women and adults by providing alphabetisation classes and by grouping some participants in revenue-generating projects as part of an integrated development approach and *Education For All*.
- Fight juvenile delinquency by appropriate preventive initiatives and family and social reintegration.
